The institute has a highly effective and operational disciplinary committee responsible for ensuring compliance with the college's disciplinary code. The committee is established to guarantee the proper adherence to rules and maintain discipline within the campus, which is essential for the smooth functioning of the institution.

The code of conduct and disciplinary guidelines are displayed and formulated in accordance with the Maharashtra Public University Act. The committee is tasked with overseeing student behaviour and ensuring all students comply with these standards. It operates based on the Standard Operating Procedures (SOP) outlined below, while adhering to the principles of natural justice.

The main role of the committee is to inform students about the code of conduct and take appropriate disciplinary action in response to any violations. The committee ensures strict enforcement of these rules on campus and handles any breaches of the established code of conduct with the utmost seriousness.

The committee also includes a redress panel that convenes to address complaints or other general issues related to disciplinary enforcement. The efforts of the disciplinary committee are vital in maintaining an organized, efficient, and stimulating environment that fosters learning for all students and supports the college's overall objectives.
