Save Water Awareness Programme

Nirmala College of Commerce conducts a "Save Water Awareness Programme" to educate students and staff about the importance of water conservation. The college organizes various awareness campaigns, displaying informative posters, pamphlets and flyers in key areas like water filter stations and washrooms. These materials emphasize the need to reduce water wastage and promote responsible usage. Through these initiatives, the college encourages everyone to adopt water-saving practices, fostering a culture of sustainability and environmental responsibility within the campus.
